Professional Summary

Product / UI/UX Designer with 5 years of experience designing web and mobile products across various industries. I enjoy solving complex problems and turning ideas into simple, user-friendly experiences. Skilled in UI/UX design, design systems, prototyping, and collaborating with cross-functional teams. I use Claude AI alongside Figma to speed up my design process, explore ideas more efficiently, and deliver high-quality design solutions.

Skills & Expertise

Core Competencies	Expertise	Tools
Product Design	Design Thinking	Figma
UI/UX Design	Information Architecture	Figma AI
Design Systems	User Journey Mapping	FigJam
AI-Assisted Design	Accessibility (WCAG)	Cursor
Interaction Design	Responsive Design	Miro
Wireframing & Prototyping	Cross-Functional Collaboration	Adobe Photoshop
Usability Testing	Agile/Scrum	Framer /Webflow
User Research	Developer Handoff	Claude AI / ChatGPT

Work Experience

Senior UI/UX Designer

Axis Tech Lanka (PVT) LTD (Apr 2025 - 2026 Aug)

- Contributed to digital transformation initiatives by introducing AI-powered workflows
- Delivered a full-scale redesign of the product, enhancing both mobile and web user experiences
- Built a full scale design system for the product, including reusable components, design tokens, and UI patterns, ensuring consistency, scalability, and efficient collaboration between design and development teams
- Built dashboard design system in Figma with 100+ reusable components, establishing design consistency and efficiency.
- Maintained brand consistency across web and mobile applications, ensuring a cohesive visual identity and seamless user experience throughout the product ecosystem.

UI/UX Designer

Nimi Tech Limited (Nov 2023 - Mar 2025)

- Provided creative direction and design feedback to ensure consistency and alignment with business goals
- Collaborated cross-functionally with teams to maintain strong design alignment and product vision
- Conducted usability testing and iterated designs based on user insights and feedback
- Gathered client requirements and translated them into effective, user-centered design solutions
- Maintained and enforced design standards, guidelines, and best practices across projects
- Managed team workload and delegated tasks based on individual strengths and project priorities
- Worked closely with clients, product managers, and developers to seamlessly integrate design into the development lifecycle

UI/UX Designer

Empite Solutions Pvt Ltd. (Dec 2021 - Aug 2023)

- Created mid-fidelity wireframes for mobile and web applications to define structure and user flows
- Designed user-centered websites and applications aligned with client requirements and business goals
- Designed personas, user flows, information architecture and accessibility (WCAG) for the business needs
- Developed high-fidelity UI designs with a focus on visual consistency and usability
- Enhanced user experience across ongoing projects through continuous improvements and iterations
- Participated in client meetings to gather insights, present design solutions, and align on project direction

Intern UI/UX Designer

Arimac Lanka Pvt Ltd. (May 2021 - Nov 2021)

- Created mid-fidelity wireframes for mobile and web applications, supporting early-stage product design
- Researched emerging design trends and concepts to bring fresh ideas into projects
- Supported the design process from research to execution, gaining hands-on experience across projects
- Collaborated with team members to refine design solutions and ensure consistency

Education

Bachelor of Information and Communication Technology (Honours)

Rajarata University of Sri Lanka (2017 - 2021)

Second Class

CCNA Routing and Switching

Cisco Networking Academy, University of Moratuwa (2018 - 2019)
